

Downtown Wi-Fi

The Wi-Fi system is a free public internet service in downtown Coos Bay. The City currently has Wi-Fi antennas on the Hub, BNT, Sause Bros. and Fire Station #1. As is indicated on the map (see next page), the area of coverage includes the 101 corridor beginning around Park Avenue (north) to Golden Avenue (south) and from the City dock (east) to about 7th Street (west).

The purpose of the City's Wi-Fi system is to provide short term free internet service for individuals and non-commercial users. The system is a non-supported network and unsecured. The cost of the City's Wi-Fi system is approximately \$1,500.00 per year.
